Brief Sketches of Their Lives, Which Should Be An Inspiration to All; Opportunities in Portsmouth for the Hard-working, Conscientious, Young Man Just As Good As Anywhere Else In The World

young man just starting in his profession.

Dr. Schirman is married to Edith Swinton of Calumet, Michigan, whom he met while both were studying at the University of Michigan. They are the parents of three daughters, Gretchen, Augusta and Marian, and one son, Harry Jr.

As a member of the Modern Woodmen of America, the Macabees, Elks, Masons, Scottish Rite and Shrine, the Rotary Club and the First Evangelical church Dr. Schirman is actively identified with the club and church life of the city. He is a Fellow of the American College of Surgeons, Fellow of the American Medical Association, a member of the Ohio Medical Association, member of the Homestead Academy of Medicine, surgeon to Schirman hospital, surgeon to the Wheeling Steel Corporation and to the Portsmouth By-Products Co. He is a director of the Royal Building and Loan Co.

Perhaps the achievement to which Dr. Schirman points with the greatest pride is Schirman Hospital, built in 1920, and listed as one of the 18 hospitals of 50 beds, in the state of Ohio approved by the American College of Surgeons. The hospital's training course for nurses is approved by the state.

If Dr. Schirman has a hobby, outside of his work, it is the Juvenile Court. "Why don't some of our clubs that want to be of service in the community make it their business to attend the sessions of the Juvenile Court and interest themselves in the boys there?" he asks.

"I am interested in Portsmouth's mortality rate," says Dr. Schirman. "When I read the reports showing that Ohio's mortality is 11.3, that Akron's is 7 plus, and that Portsmouth's is somewhere between 13 and 14 per cent I am troubled. If Portsmouth's mortality rate is high it is something with which each of us should be concerned. Therefore I am interested in the work of the Board of Health."

Speaking of opportunities in Portsmouth, Dr. Schirman says that for a young man in the medical profession who has just finished his course of study and hospital training, there is ample need in this city. Growing industries and adequate hospital facilities are found here, and according to Dr. Schirman, who has spent his entire professional life in Portsmouth, there is a splendid field here for the young physician who will put thought and service first.

#### Senate Will Have Task Of Framing Bill Revising Taxes, Opinion of Republican Leaders

(Copyright, 1924, by David Lawrence) WASHINGTON, February 20.—(By the Associated Press)—While there will be a battle on the Senate floor on amendments, the chances of a break in the ranks of the Democrats are greater than in the House where Representative Graner and Representative Garrett have been able to hold their forces virtually intact.

The biggest fight against the tax measure in the Senate will not be made by those who want high rates retained, but those who will insist upon themselves write if they were in power.

#### Ex-Secretary Yields To Senate's Opposition

WASHINGTON, D. C., February 20.—(By the Associated Press)—Senate opposition to appointment of George B. Christian, secretary to President Harding, as member of the Federal Trade Commission, led to withdrawal by President Coolidge today of Mr. Christian's nomination at the request of the nominee.

Mr. Christian has been invited to come before the senate interstate commerce committee today to explain statements made by Huston Thompson, the trade commission chairman, that "some one" tried to use Mr. Christian's office in the White House to forestall government action against a motion picture concern.

Instead of accepting the committee's invitation, the former secretary, President Coolidge to cancel the appointment.

It is probable he will be appointed to some other office.

The White House made public a letter to the president from Mr. Christian saying:

"When I informed you this appointment would be both acceptable and gratifying I believed that it would afford an opportunity for the rendition of real service and the doing of good."

#### \$200,000 Carload Of Whiskey 'Captured'

DENVER, COLO., February 20.—(By the Associated Press)—A refrigerated car, shipped from "some point in California," and containing bonded liquor estimated by police to have a value of approximately \$200,000, was placed under heavy police guard when it reached the railroad yards here late last night. The car was consigned to Cleveland, Ohio. Police refuse to give the name of the consignee.

The car will be turned over to Federal prohibition agents today.

Food feed, police sergeant, who has been watching for the car for several days, said that the shipment was billed as "non-intoxicating wine."

Seals on the car doors had not been broken early today, but police who surveyed the contents of the car through a door in the roof said that they believed the car contained at least 1,000 cases of bonded liquor.

The police declared that two cars of liquor have been shipped through Denver recently, a rum ring national in scope having been shipping through this city for many months.

#### Fuqua Chosen By Louisiana Democrats

NEW ORLEANS, LA., February 20.—(By the Associated Press)—Louisiana Democrats apparently selected Henry L. Fuqua, for many years general manager of the state prison, as governor in yesterday's runoff primary. The returns early today from a little more than half of the state's 1,310 precincts gave Mr. Fuqua a lead over Lieutenant Governor Hewitt Boncompagni, his opponent, of more than 17,000 votes. Nomination is equivalent to election.

WASHINGTON, February 20.—(By the Associated Press)—President Coolidge was advised today by Senator Lodge of Massachusetts, the Republican senate leader, that there is a growing sentiment in the Republican senate organization in favor of the re-nomination of Attorney General Daugherty.

After Mr. Daugherty had publicly defied his critics in a formal statement, Mr. Lodge and Senator Pepper, Republican, "entirely privately," went to the White House and talked over the whole subject with the president.

The Massachusetts senator frankly informed the chief executive that that was the position taken by those on the Republican side as a result of several conferences within the past few hours. The concern of opinion in these conferences was said by those who took part in them to have been Mr. Coolidge should clear his cabinet of the last of those who have become storm-centers in the oil scandal.

Whether the advice of the senate leaders will be followed was not immediately apparent.

WASHINGTON, D. C., February 20.—(By the Associated Press)—Attorney General Daugherty has re-affirmed to President Coolidge his determination not to resign under fire.

He visited the White House this morning, talking over the situation with the chief executive and returned to the department of justice, to dictate a statement affirming his decision to stay in the cabinet.

It was insisted by those close to the attorney general that he and the president had found themselves in complete accord. White House officials were silent. They would not affirm or deny that the question of Mr. Daugherty's resignation had been discussed at the conference.

#### Senator Greene Suffers Relapse

WASHINGTON, February 20.—(By the Associated Press)—The condition of Senator Frank L. Greene, of Vermont, was described by physicians as "not yet so favorable" at 10:30 this morning.

Mrs. Greene was summoned to her husband's bedside shortly after 11 a. m. and it was apparent that in attendance believed the end might be near.

WASHINGTON, February 20.—(By the Associated Press)—Senator Greene, of Vermont, was still in a critical condition early today, but his attendants were encouraged by the sturdy fight he was making to recover. They said he had maintained the slight improvement which followed the brief respite after the second operation on his brain made necessary by the wound he received Friday night, during an exchange of shots between a prohibition enforcement party and suspected bootleggers.

#### Passengers Not Affected By British Dock Strike

LONDON, February 20.—(By the Associated Press)—Passengers sailing on the big steamer lines have not been affected as yet by the nation-wide strike of dock workers.

The holding-up of the incoming American mails at Plymouth remains something of a puzzle, as none has been held up elsewhere except for a comparatively small amount of Scandinavian mail at Grimsby.

The fact seems to be that the post-office workers at Plymouth have decided to maintain complete neutrality in the strike. They are ready to handle the mails as soon as they are actually landed, it is said, but will not assist in bringing them ashore.

The government is apparently in a quandary, as it wishes to observe absolute neutrality. If orders were given to land the mails under conditions regarded as infringing on the rights of the strikers, it would immediately stir up a hornet's nest.

Difficultly also attends handling of profiteering and distribution of food held up by the strike.

#### ELKINS SAYS HE DID NOT RECEIVE ANY TIPS

WASHINGTON, D. C., February 20.—(By the Associated Press)—Senator Elkins, Republican, West Virginia, said today that he had purchased stock of the Sinclair Consolidated Oil Company.

He added he was perfectly willing to go before the senate oil committee and tell all about it.

His statement reveals that he is the senator whose name appears on the records of the Bonhard brokerage firm presented to the committee yesterday.

The West Virginia senator claimed the committee room today during the examination of Harry Payne Whitney, but was not heard.

Members said if he were called it would be in an open session.

"I purchased the Sinclair stock without any knowledge with respect to the oil leases," Senator Elkins said in a statement. "I bought much more of the Bethlehem Steel."

"I am perfectly willing to go before the committee if they desire and tell them all about these transactions. There is no law against buying and selling stock. Many of my purchases were made solely on my own initiative or on advice of my brokers."

"If you stop buying and selling this country will have to stop. This whole thing is a political drive by the Democrats but they will get the worst of it before it ends. Already William G. McAdoo has been mentioned prominently as has the late Franklin K. Lane and others."

This statement was issued after Mr. Whitney and his counsel, Frank L. Crozier, had visited Elkins' office.

#### Says He Has Right To Do It

WASHINGTON, D. C., February 20.—(By the Associated Press)—Senator David Elkins, of West Virginia, today told the United Press that he had dealt in Sinclair oil stock through Bonhard and Company, the New York brokers whose books were examined yesterday by the senate Tenet oil committee.

Elkins' name was found on the books of the firm and Elkins said he bought and sold several hundred shares of Sinclair oil stock.

"Certainly I bought and sold Sinclair oil stocks," said Elkins. "I don't care who knows it. I buy and sell any kind of stocks I want to. There is no law against it and my office does not prevent me doing so. I did not buy any tips on Sinclair oil and I did not go into any pool. If I had gone into a pool, I would probably have lost more than I did."

Asked if he had dealt in any other stocks through any other firms, he said he had dealt in them, but declined to divulge the names of the firms.

"That's for the committee to find out," he declared.

### Raid Ends In Arrest of Lakeside Man

Six full half pints of moonshine, three one gallon jugs and 132 empty half pint bottles were taken and two five gallon jugs and 27 half pint bottles were broken when Marshal Ollie Cassidy and State Prohibition Officers Lemon and Amick visited the home and premises of Ambrose McGuire, also known as L. C. McGuire, of Lakeside, late Tuesday. The officers claim they dug up the half dozen full half pints near a hog pen on the McGuire property. The bottles and jugs were found about the house and barn. McGuire is charged with a second offense of possessing and today obtained his release on \$1000 bond.

### Wellston To Have Uniform Building Code

WELLSTON, Feb. 20.—The city council took an advanced step toward the adoption of a uniform building code last night in order to keep step with the times and at the behest of insurance men who would reduce the fire hazard of the city by requiring certain construction within certain business and thickly populated sections of the city, and in preparation for such code passed an emergency ordinance preventing the building of shacks and combustible structures within certain limits. Besides the above important legislation the council also passed the necessary legislation for the improvement of West Broadway from Wisconsin avenue to the top of the hill at the intersection of West Second street and ordered issue of bonds in anticipation of the collection of assessments on various streets that have been completed.

### Brown To Give Ruling on Candidates

COLUMBUS, O., February 20.—(By the Associated Press)—Secretary of State Thad H. Brown, stated today that within the next two or three days he will give an official ruling on the question of whether candidates for delegate to the national presidential convention are required to obtain the written consent of the candidates whom they name as their first and second choices for president or whether a declaration of candidacy filed by a presidential aspirant with the secretary of state is authority for any delegate candidate to use his name. The ruling, Secretary Brown stated, will be in answer to a letter from the Stark county board of elections which has asked specifically for a ruling on the question as a result of the filing in Stark county of Harry M. Weiss as a candidate for delegate to the Democratic national convention in which Mr. Weiss names former Governor James M. Cox as his first choice, and former Governor James E. Campbell as his second choice for president. Mr. Weiss has not the written consent of either Mr. Cox or Mr. Campbell to use their names as his first and second choices, neither has either filed a declaration of candidacy with the secretary of state.

The questions on which an opinion of the secretary of state are sought, as outlined by George H. Shauf, clerk of the Stark county election board, are: "Has Mr. Weiss as a candidate for delegate, a legal right to use the names of Mr. Cox and Mr. Campbell as his choices for president when neither of the two has filed as a candidate for the office, or without the written authority of both to use their names?"

Former Secretary of State Harvey C. Smith held that a declaration of candidacy filed by a presidential aspirant with the secretary of state permitted any person wishing to become a candidate to delegate to use his name as first or second choice. It is understood that President Coolidge's supporters hold to the theory that Mr. Coolidge's written consent must be obtained by each and every person who wishes to be a candidate for delegate naming him as first choice. All petitions for Coolidge delegates which have organization backing are being sent to Washington to obtain the president's written consent.

## Seeks Receivership for Taxi Co.

F. E. Bower, one of the partners in the Reliable Taxi Service, 1141 Tenth street, filed suit Wednesday in Common Pleas court, asking for a receivership and dissolution of the partnership. The suit was directed against W. R. Funderburg, Clifford Evans and Robert Lee Scott, other partners in the firm. Bower avers in his petition filed through Attorney Mark Crawford that to the best of his belief the firm is insolvent and claims that it is unable at present to pay its present indebtedness, besides, he declares, its business affairs are being mismanaged and that its property is being misused. He further says that a continuation of the business by those who are now in active charge will result in loss to the firm and by reason of the premises asks that the property and business be sold and the proceeds applied to the payment of the partnership debts according to the respective interests of the partners may appear, and for an accounting as among the partners. Plaintiff says the firm is possessed of the following described properties: four Overland touring cars, two Dodge touring cars, one two-ton traffic truck, one Willys-Knight wrecker, and automobile accessories and equipment, of a probable value of \$2,000 and then claims he is the owner of claims aggregating approximately \$3,500 against the partnership.

(Continued from page 1.) The visit of the attorney general to the executive offices had revived a belief among those who have attacked him in the senate that his retirement was imminent. It was even indicated that some of those demanding his resignation were withholding for the present any renewal of the fight in conference that it would not be necessary.

In his statement the attorney general denied the charges made in the senate yesterday by Senator Wheeler, Democrat, Montana, concerning his administration of the department of justice.

He said he "welcomed the opportunity to meet any charge against his administration," which might be involved in the senate resolution ordering an investigation.

"I have read the speech of Senator Wheeler delivered in the senate yesterday," the statement said. "He makes certain charges against me in my official capacity as attorney general of the United States.

"These charges are made in general terms. I deny each and all of them specifically and generally.

"I know the facts they have at all times been available to the senate, to neither the senator nor any one for him, has asked me or the department of justice in reference to the charges made.

"It has been misled and in its proper time the truth in regard to these matters will be given to the public.

"These charges were all explained before the judiciary committee of the house last winter in the impeachment proceedings against me and after a long and careful hearing and investigation the committee by a vote of 29 to 1, partly being forgotten, declared them to be unfounded.

"Earlier, the report of the committee was formally adopted by the house of representatives and I was exonerated of every charge present against me. The same influences that inspired the impeachment proceedings last winter are behind the present agitation in the senate.

"It is necessary for me to go through this ordeal again. I welcome the opportunity to meet any charge against my administration of the department of justice."

was blamed for injuries to nine persons, either in falls on slippery walls, or by being struck by automobiles whose drivers lost control.

A continuation of the sleet storm throughout the day was predicted by Weather Bureau meteorologist.

Mingled sleet and rain began falling yesterday afternoon and continued throughout the night. Telegraph and telephone wires, sheeted in ice, broke in hundreds of places.

Trolley schedules in the city and suburbs were fairly well maintained. Train schedules suffered but little.

Pittsburgh Has Severe Storm  
PITTSBURGH, Pa., February 20.—(By the Associated Press)—Snow, sleet and rain pouring on ice-covered streets and roads combined to give Pittsburgh and surrounding territory a severe storm of the winter.

One death has resulted, numerous injuries to persons from falls and automobile collisions have been reported, and traffic generally is at a standstill as the precipitation which began yesterday afternoon, continues unabated.

For more than eight hours last night the city was cut off from telephone and telegraph communication with territory as far as fifty miles away, although cable lines to more distant points was not held up. Trains are hours behind time and interurban trolley schedules have been delayed for the first time this winter.

At one time yesterday one of the inclined planes which carries people to hilltop residences was stalled by the sleet midway up its climb and a score of passengers were marooned for several hours. A number risked their lives climbing over ice-covered ties to reach their homes.

Telegraph and telephones and private wire systems which were completely down in the area of the storm were reported as operating again early this morning, although in reduced capacity.

ministrative features were accepted without dissent, and the final gains and losses and earned income sections were the sections first in order for consideration today.

The Garner rates were adopted in the face of a compromise offer by Representative Longworth, Republican floor leader, to submit an amendment to make the maximum surtax rate 37 1/2 per cent instead of 25 per cent as carried in the bill. Republican insurgents refused the offer, siding with the 203 Democrats for the Garner amendment.

Two other sub-proposals already had been rejected, one by Chairman Madden of the appropriations committee, providing for the Mellon rates except for a surtax maximum rate of 20 per cent instead of 25 per cent and the other by Representative Frazier, Wisconsin, Republican, calling for a maximum surtax of 50 per cent on incomes of \$200,000 and over, and for a 50 per cent cut in normal rates.

The capital gain and loss section taken up today carries a change recommended by Secretary Mellon to limit the deduction on account of capital losses to 12 1/2 per cent of the loss. The present law limits the tax on capital gains to 12 1/2 per cent, but does not limit capital loss deductions. Enactment of the change would increase revenues about \$25,000,000 annually, Mr. Mellon estimated.

The earned income section is a new provision of the law, also recommended by Mr. Mellon. The committee allowed a 25 per cent reduction in taxes on earned incomes and placed all incomes above \$25,000 in this category. Incomes above that amount up to \$200,000 received from wages, salaries, professional fees and as compensation for other personal services, also are defined as earned.

stated that McDowell had told several conflicting stories.

The police say that McDowell related how his two sisters had been killed to death at their home in a Georgia town a year ago, the auntresses on which they were sleeping being saturated with kerosene and then fired.

Daughters Burned To Death  
DECATUR, Ga., Feb. 20.—Marion, aged 18 years, and Willie Mae, 16 years of age, daughters of Mr. and Mrs. J. M. McDowell, who were shot and killed in St. Petersburg, Fla., were burned to death here about one year ago when they were trapped in a room in the McDowell home.

Shortly after the fire the family moved to St. Petersburg.

The blaze has always been a mystery. Fire officials stated at the time that gasoline was thrown through an open window into the girls' bedroom and ignited. Their charred bodies were found in the bed.

Several negroes were arrested as suspects, particularly a negroess whom Mrs. McDowell had discharged from her employ as a servant two days before the fire.

All the negroes had to be rushed to Atlanta for safe-keeping as mob violence was said to be threatening.

### Raid Ends In Arrest of Lakeside Man

Six full half pints of moonshine, three one gallon jugs and 132 empty half pint bottles were taken and two five gallon jugs and 27 half pint bottles were broken when Marshall Ollie Cassidy and State Prohibition Officers Lemon and Amick visited the home and premises of Ambrose McGuire also known as L. C. McGuire of Lakeside, late Tuesday. The officers claim they dug up the half dozen full half pints near a hog pen on the McGuire property. The bottles and jugs were found about the house and barn. McGuire is charged with a second offense of possessing and today obtained his release on \$1000 bond. The time for his trial before Mayor V. R. Bierley has been set for next Monday night at 7 o'clock. McGuire was convicted and fined in Mayor Bierley's court several weeks ago. He was arrested a second time when moonshine was found in a machine on his place but he was not found guilty that time.

### Wellston to Have Uniform Building Code

WELLSTON, Feb. 20.—The city council took an advanced step toward the adoption of a uniform building code last night in order to keep step with the times and at the behest of insurance men who would reduce the fire hazard of the city by requiring certain construction within certain business and thickly populated sections of the city and in preparation for such code passed an emergency ordinance preventing the building of shacks and combustible structures within certain limits. Besides the above important legislation the council also passed the necessary legislation for the improvement of West Broadway from Wisconsin avenue to the top of the hill at the intersection of West Second street and ordered issue of bonds in anticipation of the collection of assessments on various streets that have been completed.

### Brown To Give Ruling on Candidates

COLUMBUS, O., February 20.—(By the Associated Press.)—Secretary of State Wm. H. Brown, stated today that within the next two or three days he will give an official ruling on the question of whether candidates for delegate to the national presidential convention are required to obtain the written consent of the candidates when they name as their first and second choices for president or whether a declaration of candidacy filed by a presidential aspirant with the secretary of state is authority for any delegate candidate to use his name. The ruling, Secretary Brown stated, will be in answer to a letter from the Stark county board of elections which has asked specifically for a ruling on the question as a result of the filing in Stark county of Harry M. Weiss as a candidate for delegate to the Democratic national convention in which Mr. Weiss names former Governor James M. Cox as his first choice, and former Governor James E. Campbell as his second choice for president. Mr. Weiss has not the written consent of either Mr. Cox or Mr. Campbell to use their names as his first and second choices, neither has either filed a declaration of candidacy with the secretary of state. The questions on which an opinion of the secretary of state are sought, as outlined by George H. Shaw, clerk of the Stark county election board, are: "Has Mr. Weiss as a candidate for delegate, a legal right to use the names of Mr. Cox and Mr. Campbell as his choices for president when neither of the two has filed as a candidate for the office, or without the written authority of both to use their names?" Former Secretary of State Harvey C. Smith held that a declaration of candidacy filed by a presidential aspirant with the secretary of state permitted any person wishing to become a candidate for delegate to use his name as first or second choice. It is understood that President Coolidge's supporters hold to the theory that Mr. Coolidge's written consent must be obtained by each and every person who wishes to be a candidate for delegate naming him as first choice. All petitions for Coolidge delegates which have organization backing are being sent to Washington to obtain the president's written consent.

## Seeks Receivership for Taxi Co.

F. E. Bower, one of the partners in the Reliable Taxi Service, 1141 Tenth street, filed suit Wednesday in Common Pleas court, asking for a receiver and dissolution of the partnership. The suit was directed against W. B. Funderburg, Clifford Evans and Robert Lee Scott, other partners in the firm. Bower avers in his petition filed through Attorney Mark Crawford that to the best of his belief the firm is insolvent and claims that it is unable at present to pay its present indebtedness, besides, he declares, its business affairs are being mismanaged and that its property is being consumed. He further says that a continuation of the business by those who are now in active charge will result in loss to the firm and by reason of the premises asks that the property and business be sold and the proceeds applied to the payment of the partnership debts according to the respective interests of the partners may appear, and for an accounting as among the partners.

## It's Still Plain Edith Allen

Edith Allen (above), movie actress, was bitten with the prevalent "name-changing bug." She wanted something that sounded lofty. So she picked "Hedra Lind." But it wouldn't work. ## Lodge

(Continued from page 1.)  
The visit of the attorney general to the executive offices had revived a belief among those who have attacked him that the senate that his retirement was imminent. It was even indicated that some of those demanding his resignation were withholding for the present any renewal of the right in conference that it would not be necessary. In his statement the attorney general denied the charges made in the senate yesterday by Senator Wheeler, Democrat, Montana, concerning his administration of the department of justice. He said he "welcomed the opportunity to meet any charge against my administration," which might be involved in the senate resolution ordering an investigation. "I have read the speech of Senator Wheeler delivered in the senate yesterday," the statement said. "He makes certain charges against me in my official capacity as attorney general of the United States. These charges are made in general terms. I deny each and all of them specifically and generally. I know the facts they have at all times been available to the senator, yet neither the senator nor any one for him, has asked me or the department of justice in reference to the charges made. He has been misled and at the proper time the truth in regard to these matters will be given to the public. These charges were all exploited before the judiciary committee of the house last winter in the impeachment proceedings against me and after a long and careful hearing and investigation the committee by a vote of 20 to 1, partly lines being forgotten, declared them to be unfounded. Later, the report of the committee was formally adopted by the house of representatives, and I was exonerated of every charge present against me. The same influences that inspired the impeachment proceedings last winter are behind the present agitation in the senate. If necessary for me to go through this ordeal again, I welcome the opportunity to meet any charge against my administration of the department of justice."

## IF YOU MISS "THE 1ST YEAR" YOU WILL MISS A THEATRICAL TREAT

Scott Welsh, who will appear as Tommy Tucker in "The 1st Year," the John Golden comedy coming to the high school auditorium Monday, February 25, is a product of Main Street, and fits naturally into the part of the bashful small town lover and real estate agent in that play.

Scott Welsh has been on the stage 10 years, but he received his real training for his present part before he left his home town. He was born in Elmira, New York.

"Yes, I did all the things a Main Street fellow does," he said recently, "even to working on the home town paper." Welsh served an apprenticeship on the Elmira Telegram. From the ranks of the Fourth Estate, he drifted to the stage.

Local theatre goes may remember Welsh as "Kid Burns" in "Forty-Five Minutes From Broadway." He had the leading role in "Sweet Sixteen," a prominent part

in "The Pink Lady," and was an outstanding hit in "Oh! Oh! Delphine!"

Reserved seats for the performance are now on sale at the Standard Levi furniture store, 1007 Gullin street. Proceeds from the performance will be used toward the fund for building a pipe organ in the new Jewish Temple.

E. church basement was taxed to its utmost capacity. A sum of \$13.62 was realized to defray costs of the athletic equipment used by the boys' club. The girls' club is contemplating a similar social in the near future.

## BUSES OUST STREET CARS

EMPORIA, Kan., Feb. 20.—Emporia voted today at a special election to substitute motor buses for street cars. The majority was 353.

JAMES WESLEY FRUSH, CLARKSBURG, W. VA.

"Persons suffering from nervous troubles make no mistake when they try Kad-ak, for it has done me the world of good," said Mr. James Wesley Frush, 320 Lee st., Clarksburg, W. Va. Mr. Frush has been engaged in doing marble and cement work around Clarksburg for the past several months, but was formerly a Sheet Heater in the Sparrows Point Works of the Bethlehem Steel Co., at Baltimore. He is a member of the Order of Moose, No. 1522, Martins Ferry, O., and a member of the Bethlehem Steel Relief. He said: "Before coming to Clarksburg I worked in the Steel Mills for 18 years, and any one who has had any experience in the work will tell you that it is a terrible strain on a man's vitality. Well, it wore me out and I suffered a physical and nervous collapse and had to go to the hospital, where I was laid up for several weeks. The doctor who took care of me told me that I had one of the worst cases of nervous breakdown he had ever seen and after my discharge I was forbidden to do any work that would tax me mentally or physically. I could not afford to stay idle, so I took hold of the marble and cement work and have been working steadily at this business."

Several weeks ago I heard of Kad-ak and started taking it. I weighed at that time 140 lbs.; my weight today is 176 lbs., and I feel as well as I ever did in my life. In fact, I am feeling so well that I plan to go back to the steel mills, as there is good money for me in this work and I really like it better."

"Kad-ak is responsible for my recovery; it has built me up and relieved my nervous trouble and has practically made a new man of me." Kad-ak can be obtained in Portsmouth at Fisher & Streich Drug Store.—Advertisement.

HUNTINGTON, W. Va., Feb. 20.—Licensed punchboards have a right to operate in West Virginia, Prosecuting Attorney Luce Marcum ruled yesterday.

"When I first discovered that punchboards were operated here, I moved to stop them, but was informed they were licensed by the state," said Mr. Marcum.

## Leaped Into Arms of Firemen and Spectators

Relative to the escape of Mr. and Mrs. Fred Baesman from the Vanity Fair building which was destroyed by fire in Huntington early Monday the Huntington Herald-Dispatch said:—

Asleep in a room on the second floor of the building, Fred W. Baesman and his wife, jointly proprietors of Baesman's Dancing Academy, by which the building was also known, narrowly escaped cremation. They were awakened by the shouts of firemen, but were trapped in the room with flames all around them. Both leaped from their window into the arms of spectators and firemen on the street below and were unharmed.

Whether a new building will be erected on the site where Vanity Fair, also known as Baesman's Dancing Academy, stood until Monday, when it burned to the ground shortly after daylight, will not be known definitely until the owners, B. H. Armstrong and J. H. Holler, confer with officials of the chamber of commerce, whose lease on the property expires October 1, 1925.

## Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly—I haven't been in Portsmouth very long, but I have been here long enough to get acquainted with quite a number of young girls and I picked myself a nice girl whom I thought would measure up to my standards of everything that a man would want in a young lady and I proceeded to court her in my own old-fashioned way, and what do you think she did? Pop the question? Not on your tin-type! She ditched me about right. She put me on the brakes and I skidded right over the back and here I am writing you to see if I can't get something nice for her to pull me out. This didn't happen Sunday night, when the streets were coated with ice either. It was last Wednesday night. The girl said I was entirely too slow for her. I got on her nerves, an old fellow continued to call on her much longer, she had to land in the bus house, so there! I guess she wants some swift guy, who will get her up in a twinkling. Now Dolly I would like to know if every girl in Portsmouth is like this one? If they are I guess I will have to pack my little grip and money back and that dear old Ironton, where the girls are nice and sweet and lovely to gaze upon. Tra-la, Dolly.

Shades of Center street! Come on back and pick up your monacle, and dust off your spats before you go back to that dear old Ironton. No wonder they call that a sleepy town if they are all like you! The girls here are not swift, but they do like to have a real honest-to-goodness man call on them occasionally, and not a terrified mummy. No one wants to sit and waste a perfectly good evening watching a sleepy man twirl his thumbs. Portsmouth girls like to entertain real live interesting and entertaining men—ones who can talk about the topics of the day, and who are not too stingy to take them out and show them a good time occasionally. Get me, Reginald!

Dear Dolly—Will you please tell me what Jackie Coogan's address is? THANK YOU

## ADVENTURES OF THE TWINS

By Olive Roberts Barton

MORE ESCAPES

Nancy and Nick hid in a pink rose.

When the giant farmer's wife fished Nancy and Nick out of her milk pail, thinking they were flies, she drew them down on the grass beside her.

"Pie upon you, pesky things!" she cried. "Haven't one enough troubles with all the work to do, without being bothered by you! I hope the big green frog will get you and gobble you up—and all your relatives."

The twins had to laugh, even though their breath was nearly knocked out of them, and they were half choked with the milk they had swallowed.

"Better keep out of her way or she will put her foot on you," said a voice beside them. "Or worse still the cow may take a notion to eat the grass where you are hiding. Better come away."

A great creature came up close beside them and looked at them with its big eyes. It appeared to be almost as large as a pony to the astonished children, but in a way, more like a camel, for it had two humps to its back. However, it was nothing so unusual—it was merely a Beantank.

Now, here everything was hundreds of times as big as they were at home.

"If you like I will give you a ride," offered the old kindly. "But do hurry. I saw the rooster coming this way and if he sees us it will be 'Eeny, meeny, my no! I need some food so down you go with all three. And I for one have to desire to be one of the cows of Mr. Rogers' dinner. There he comes now Quick! Jump on."

Up scrambled the twins—Nancy on one hump and Nick on the other.

The friendly old boatman watched Jack for a few minutes, and then shouted: "Be sure, and bring my boat back." Jack quickly stood up in the rowboat to shout a promise that he would, when suddenly the boat tipped and threw Jack and Flip splashing into the water. (Continued)

"What's the matter, sonny?" said an old man, as he walked up to where Jack stood. Jack explained how he had missed the camping boat. "Well, don't let that worry you," said the old man, "just take any rowboat and follow the camping ship. If you row hard you can catch up with it."

Jack, of course, was glad of any chance to catch up with the rest of the campers, so he immediately dropped over the edge of the dock into the little rowboat. Flip then joined his master and Jack sat down and grabbed hold of the oars. Away he went, right up the winding river.

## Senator Wheeler, Democrat of Montana, Charges Daugherty Protects Criminals

WASHINGTON, February 20.—(By The A. P.)—The attempt to drive Attorney General Daugherty from the cabinet was renewed from a new angle in the senate today after he had adopted an attitude of defiance toward his critics.

Senator Wheeler, Democrat, Montana, not only charged on the senate floor that the attorney general's name was mixed in the oil scandal from the first, but he charged that Mr. Daugherty's personal friends had been accepting money in exchange for their influence with him and added that "if the attorney general has not actually got the money, he is a bigger fool than the people of the United States give him credit for being."

Has Evidence, He Says

"This is only a small portion, an extremely small portion, of the testimony that will be produced," Senator Wheeler said, "showing beyond any question of doubt in my mind that the attorney general of the United States, instead of prosecuting crime, has been protecting crime and criminals."

The speech of the Montana senator was delivered in behalf of his resolution asking for a sweeping investigation of Mr. Daugherty's official record. He sought immediate action but consent was refused by Senator Lodge of Massachusetts, the Republican leader, because of Mr. Wheeler's proposal that he himself select the investigating committee.

### NAMES Smith AND FOLDER

In his charges on the senate floor that friends of Mr. Daugherty had accepted money, Senator Wheeler named Jesse Smith of Ohio, who committed suicide in the attorney general's apartment here last May, and "the attorney general's former partner, Mr. Folder."

Senator Wheeler made his senate speech after he had appeared before the oil committee in executive session and laid before it certain information regarding investigations which have been made into charges of stock speculation by government officials. He would not reveal the character of this information but promised that if necessary he would produce it publicly at the proper time.

Would Select Committee

The Montana senator proposed as members of the investigating committee, the selection of Senators Brookhart, of Iowa, Jones, of Washington, and McLean, of Connecticut, Republicans, and Ashurst, of Arizona, and himself, Democrats. Senator Lodge objected that designation of the committee members in the resolution itself was an insult to the presiding officer, whose function it naturally would be to make the selections. Senator Wheeler in return

asked whether Senator Willis, Republican, Ohio, had not given the chair another list for membership on the committee after conferring with Mr. Daugherty.

"Certainly I conferred with the chair," said Senator Willis.

"After just previously you had conferred with the man who is to be investigated," persisted Senator Wheeler.

"That statement, like so many of the senator's, is entirely gratuitous," replied the Ohio senator. "It is altogether beside the point."

"Ever since the attorney general has occupied the important position he now holds," Senator Wheeler continued, "various charges have been made against him in the newspapers and by individuals from one end of the country to the other."

Points Out Associates

"Recently, when the oil scandal first developed, it appeared that the attorney

general's name was mixed in it. It appeared, if you please, that he was a friend of Ned McLean. Everybody knows he was a friend of Sinclair. Everybody knows he was a friend of Doherty. Everybody knows that these three men met in the apartment of the attorney general from time to time.

"Everybody knows that Jesse Smith, who was brought from the state of Ohio and had an office in the department of justice and who was not on the pay roll, was accepting money in connection with various cases that arose in the department of justice."

The newspapers of New York carried the details of how the attorney general's former partner and friend, Mr. Folder, was collecting money for the purpose of selling offices and appointments, and for the dismissal of whiskey cases in the city of New York.

Asking why the department of justice had taken no action against Albert B. Fall, after the full testimony relating to the story of a loan to him by Edward B. McLean became public, Senator Wheeler continued:

"We find the department of justice, instead of trying to detect the greatest crooks and those guilty of the greatest crime against the nation that has ever been perpetrated, protecting them all during this time. We find them protecting them today because I am reliably informed that only last Sunday the attorney general of the United States held a conference with Ned McLean."

"I propose in my resolution to name the members of the committee in order that I may know, and in order that the people of the country may know, that there is going to be a fair and impartial investigation and that if the attorney general is guilty, he will be driven from public office and into oblivion, and that if he is not guilty, his name will be cleared."

The **GENERAL**

BALLOON TYPE CORD

Taking Your Tires in Trade

Built in Akron, Ohio, by The General Tire and Rubber Company

### The Evolution of the Balloon Tire

#### 1916

The first step in the development of the present Balloon type tire was made by General in 1916 when the original Jumbo 30 x 3 1/2 tire was brought out. This tire was 19% over standard construction and excessively large air chamber—features which are merely magnified in the Balloon type tire of today. This is found that even at that early date General was building tires according to present-day Balloon principles. This tire pointed the way and set the pace for the development of the Balloon idea.

#### 1919

The next step forward was the Jumbo 30 x 3 1/2 Cord originated by General in 1919. General again led the field and emphasized the possibilities of low air pressure—only 30 lbs. of air pressure required for this tire.

Also in the larger sizes General Cord tires have been giving mileage that has made the name General famous on very low inflation—requiring 40% less air than is required for other standard tires of the same sizes. That is why General has been known for years as the low air pressure tire and this car-saving and comfort feature in the General Cord of all sizes satisfies the most particular demand.

#### 1923-1924

The new Balloon type tires simply carry out and emphasize to an extreme degree the low air pressure advantages known to the General line for years. The General Balloon Cord represents the most advanced and dependable stage of Balloon type tire because it is based on long experience in low-pressure construction. It is the outgrowth of ideas which have been constantly employed by this company for seven years in the development and improvement of its regular line.

"And the deadly peril?" quoth the Duke gloomily, almost suspecting that his friend was rallying him. "Where shall I find that?"

"If you want to find it, you may have long to wait. You must, your self, provide it. A little contriving, a little invention, will soon supply what you lack."

"Can you propose anything? Can you be more than superiorly vague?"

CHAPTER IX.  
Albemarle Proposes.

Ned Tucker did not long leave his proposal to Holles unconfirmed. He sought him in the matter again at the Paul's Head three days later on the Sunday, and sat long in talk with him in the little parlor.

He found the Colonel a little more malleable today, a little less insistent upon serving governments in ease.

Still, he did not altogether yield to Tucker's persuasions; but neither did he discourage him when the latter promised to visit him again on the morrow, bringing another old friend of their Parliament days. And on the Monday, true to his promise, Tucker came again, accompanied this time by a gentleman some years his senior, named Rathbone, with whom Colonel Holles recalled some slight acquaintance. This time they came with a very definite proposal empowered, so they told him, by one whose name they would not yet utter, but which, if uttered, must remove his every doubt.

"For that, Randal, you will accept our word, I know," said the grave Duke.

Holles nodded his agreement, and the proposal was disclosed. It offered him a position which in an established government would have been dazzling. It was dazzling even as things were, to one in his desperate case, driven to the need of making a gambler's throw. It on the one side

## A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and kills the germs.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.—Adv.

## LOCAL MAN WINS SUIT ON NOTE

F. E. Bower, plaintiff in a suit in common pleas court at Cincinnati, won his case Monday against the Chris E. Hart and Sons Motor Co. of Norwood, O.

Attorney Mark A. Crawford of this city appeared for the plaintiff and the law firm of Black and Butner and Atty. Thos. L. Zientz of Hamilton county represented the defendants.

The jury, composed of six women and six men, was out just seven minutes. Judge Dixon presided. The judgment was for \$300, and suit was brought on a note.

## Twenty-Four Years Ago

Mr. and Mrs. Irving Drew left for New Orleans on the Steamer New South to attend the Mardi Gras.

Steamer Henry Stanley struck a pier of the Southern Railroad bridge, Cincinnati, and sunk in twenty feet of water.

Jacob Lantley died at his home at the age of 54 years, a native of Baden, Germany, where he was born in 1846, and came to the United States when eight years old. He was engaged in the saloon business in this city for several years.

William Cook, 27, farmer, Green township, obtained a license to wed Arizona Grimm, 18, of the township.

C. C. Beto Wampler, 21, Brush Creek township farmer, was granted a license to wed Estelle Smith, 21, daughter of Joseph W. and Amanda Cross Smith, of Brush Creek township.

A gang of moonshiners was uncovered in Greenup county, Kentucky, and resulted in the arrest of eight men.

**Fined Costs**  
C. Jung and J. H. Adams, arrested for not having tail lights burning on their machines, were fined the costs, \$6.20 each in Municipal court, Tuesday.

TUCKER CAME AGAIN, ACCOMPANIED BY A GENTLEMAN SOME YEARS HIS SENIOR.

The hand of Heaven is already raised. I come to prefer the greatness that we offer you in the future to the crust that Albemarle throws you at the moment. If you are wise, you will. If so, you know where to find me. Seek me there, and be sure of my welcome as of my friendship."

They shook hands and parted, and with a sigh to himself a smile Holles turned to look at himself in a mirror. He was not, he thought, likely to see Tucker again.

That afternoon he waited upon Albemarle, who gave him particulars of the appointment he had to offer. It was an office of importance, the pay was good, and so that Holles discharged his duties well, which the Duke had no occasion to doubt, there would be even better things in store for him before very long.

"The one thing to efface the past is a term of service now, wheresoever it may be. Hereafter when I commend you for some other place, here at home, perhaps, and I have asked what are your antecedents, I need but point to the stout service you will have done in the Indies, and men will inquire no further. It is a temporary exile, but you may trust me to see that it endures no longer than is necessary."

No such advocacy was needed to induce Holles to accept an office that, after all, was of an importance far beyond anything for which he could reasonably have hoped. He said so frankly by way of expressing his deep gratitude.

"In that case, you will seek me again here tomorrow morning. Your commission shall be meanwhile made out."

The Colonel departed jubilant. So back to the Paul's Head he came with his soaring spirits, and called for a bottle of the best Canary. Mrs. Quinn read the omens shrewdly.

"Your affairs at Whitehall have prospered, then?" said she between question and assertion.

Holles reclined in an armchair, his legs, from which he had removed his boots, stretching luxuriously upon a stool, his head thrown back, a pipe between his lips.

"Aye. They've prospered. Beyond my deserts," said he, smiling at the ceiling.

"Never that, Colonel. For that's not possible." She beamed upon him, puffing the full stop.

He got up to take it, and looked at her, smiling.

"No doubt you're right. But I've gone without my deserts so long it I have lost all sense of them."

"There's others who haven't," said she; and lightly added a question upon the nature of his prosperity.

He paused to drink a quarter of the wine. Then, as he set down the vessel on the table at his elbow, he told her.

Her countenance grew overcast. He was touched to note it, interfering from this manifest regret at his departure that he had made a friend in Mrs. Quinn.

## Winter Find You Tired and Achy?

Do You Suffer Constant Backache—Feel Old and Worn Out? Then Follow the Advice of These Portsmouth Folks!

**DO YOU** get up these winter mornings feeling tired, weak—achy all over? Are you so lame, stiff and miserable it seems you can never get back in trim? Does your back ache with a dull, constant throb? Sharp, rheumatic pains torture you at every step?

Then you should be giving some attention to your kidneys!

Winter, you know, is danger time for the kidneys. That's because exposure to colds and chills wears down body resistance and throws an unusually heavy strain on the hard-working kidneys. The kidneys are apt

to fall behind in keeping the blood-stream pure, and poisons accumulate that well kidneys would have filtered off.

Racking backaches come with stabbing pains; muscles and joints ache constantly; there are headaches, too, with dizziness and distressing kidney irregularities. Nerves are "lumpy"; one feels old—all worn out.

Give your weakened kidneys the help they need. Use Doan's Pills—a stimulant diuretic to the kidneys. Doan's have helped thousands. They are recommended by many Portsmouth people. Ask your neighbor!

**"Use Doan's, Say These Portsmouth People:**

G. W. ROWE, mgr. gasoline station, 1525-7th St., says: "I was troubled with riches the aching through my back when sleeping. After being in a bed position I couldn't straighten again as my back was so ached up and more. I was so lame and tired I didn't care to move. I became dizzy and my kidneys were weak and I was obliged to get up at night. Doan's Pills cured me of the trouble."

MRS. MAE TAYLOR, 1235 Gallia St., says: "My back became weak and told on my health. Sleeping or dusting caused me to start and when in this position I got terrible pains through my back and could hardly rise. I was dizzy and nervous and black specks came before my eyes. I could not sit in my housework and my kidneys ached irregularly. Doan's Pills, from Jones Drug Store relieved the trouble."

## MANIAC BLAMED FOR FIRE THAT KILLS 13 IS SOUGHT BY POLICE

NEW YORK, Feb. 20.—(By the A. P.)—Thirteen victims containing the bodies of the victims of a fire which broke out in a five-story tenement building in the lower East Side, were today laid out in the morgue and removed from the morgue to the homes of relatives. The last identification, that of an eleven-month old girl, was made by her father, the sole surviving member of his family.

Two others, a man and a girl baby, were rescued only after they had been burned so seriously that they may die. Although several of the tenants, who barely escaped death, declared the fire burst forth after a moonshine still explosion in the quarters of the janitor, a victim, police tonight were convinced the fire was set. They sought a half-crazed pyromaniac whom some of the rescued reported having seen run from the lower hallway at the first cries of "fire."

**NUN BRINGS SUIT TO CONTEST WILL**

CINCINNATI, Feb. 20.—(By the A. P.)—A suit contesting the will of Michael J. Settemayer, former butcher, was filed in common pleas court today by Sister Rose, Lima, Catholic nun, formerly Miss Mary Settemayer his daughter.

PHILADELPHIA, Pa., Feb. 20.—(By the A. P.)—Clothes worn by Abraham Lincoln when he was assassinated in Ford's theatre, Washington, by John Wilkes Booth, today were sold at public auction here for \$6,500. They consisted of an old black suit, the collar stained with the life blood of the martyred president, the trousers wrinkled; a badly worn overcoat, and a faded silk stock.

Bidding opened at \$500 and rose rapidly to the sale price, when the lot was knocked down to a bidder who gave his name as Mr. Douglass.

The back and arms of the overcoat had been clipped by souvenir hunters but the dark lining, with the figures of two American Eagles and the motto, "One Country, One Destiny," was intact. The garments were originally presented by Mrs. Lincoln to Alphonso Donnan, a White House door keeper of whom the president had been fond, and who had been his constant companion while in Washington.

A letter from Mrs. Lincoln to Donnan regarding the gift was sold with the clothes.

### Coolidge Trying to Secure Practical Man to Succeed Denby

WASHINGTON, Feb. 20.—(By the A. P.)—President Coolidge in approaching the selection of a new secretary of the navy to succeed Edwin Denby, will endeavor to obtain the services of a man having some knowledge of mining and engineering as well as naval affairs.

Mr. Coolidge has given no special consideration as yet to filling the vacancy to be brought about by the retirement of Mr. Denby, March 10, but has fairly definitely made up his mind as to the type of man he desires. Some one with some knowledge of mining and engineering is regarded by the executive as desirable in view of the probability that the naval oil-reserves transferred to the interior department and leased to private interests under Secretary Fall may revert to the navy department as the

result of legal proceedings by the government's oil counsel.

#### Several Possibilities

White House officials emphasized today that the president had not yet gotten down to the consideration of names. Speculation with respect to the selection, however, brought into question John Hays Hammond, mining engineer and inventor of a number of appliances now used by the navy; George E. Posa, of Chicago, chairman of the house naval affairs committee for eight years, and former Representative Keller, of Michigan, who was chairman of the appropriations committee on naval matters in the last congress.

Slight belief exists in official quarters that Theodore Roosevelt, assistant secretary of the navy, will be elevated to the secretaryship. Mr. Coolidge let it be known today that he expected him to remain as assistant secretary, although demand was made in the senate during the day by Senator Harrison, Democrat, Mississippi, that Mr. Roosevelt also resign.

#### Hull Issues Statement

The resignation of Secretary Denby was the subject of a statement tonight by Cordell Hull, chairman of the Democratic National committee, who declared President Coolidge owed a "debt of gratitude to the Democratic party for having set in motion the irresistible force of public opinion, resulting in the resignation of Secretary Denby, the first act in a needed house cleaning of the Republican national administration."

"On the face of the letters which passed between President Coolidge and Secretary Denby, it is apparent that the president would have done nothing

of his own volition to bring about Secretary Denby's resignation or to summarily remove him from the cabinet," said Chairman Hull.

"By expressing his regret to part with Secretary Denby and giving him a clean bill of health in the matter of naval oil leases, by praising the 'sense of public duty,' and 'the fine sense of loyalty,' the president seems to put the seal of his approval on Secretary Denby's defiant statement that he would do the same thing over again."

Thousands of women who have had a trim, stylish figure all their lives, begin to take on weight in early middle life. ### DONAHEY CALLS ON OHIOANS TO AID STARVING GERMAN PEOPLE

COLUMBUS, Feb. 20.—(By the A. P.)—Governor Donahey in a statement to the people called upon all to contribute for the relief of destitute and starving children and women in Germany.

His statement follows: "Multitudes of women and children in Germany are in a starving and helpless condition, with America their only hope."

"When the cry of hungry children is involved, no people of any race will look to our country in vain."

"Coming from Germany, as it does, it should make an especial appeal to

us, Citizens of German blood have contributed so much to the stability and greatness of Ohio that the excellence and worthiness of that nationality has been impressed upon us.

"The people of Germany are reaping the fruit of an unfortunate imperial government, which has been overthrown. They are now in the period of readjustment, which, we hope, will result in the working out of a free government so essential to the prosperity and happiness of any nation."

"I am sure the people of Ohio will contribute gladly, according to their means, to save the children of a sister civilized nation."

### Convicts Express Regret Over Revolt; Praise Warden; Send Check to Orphans

PITTSBURGH, Feb. 20.—(By the A. P.)—The routine of the grim old Western penitentiary here was broken for an hour today while a thousand convicts, gathered in the mess hall for lunch, talked of the last week's riot, in which two guards were shot, and then, amid shouting and handclapping, adopted a resolution expressing their determination to stand behind the administration of Warden John Egan. The prisoners, many of them long termers, surprised even the guards when they produced the typewritten resolution expressing confidence in Warden Egan, and singing their praises of the way he treats the men who are held behind the gray walls.

Meeting Authorized  
Forbidden by prison rules to speak in the dining room, a convict stepped forward from a table far in the rear. He spoke to a guard, who called a member of the prison board and when sanction was given, the convict meeting was on. Ed Cunningham, who has been in the penitentiary for several years, was the

spokesman. After the two guards had been killed and a wall of the prison dynamited by a dozen "bad men" last Monday, the convicts, through their "tapping" system, decided to express to Warden Egan their feelings for him, the convict said. So a trusty, at work in the office, was delegated, with five other trusties, to type the resolution and have it ready for today's meeting. Coincident with the adoption of the resolution checks for more than \$800 were collected by the convicts for the families of the dead guards and turned over to Warden Egan.

### Pastor, Through Court's Decision, Cleared of Charges of Misconduct

CHICAGO, Feb. 20.—(By the A. P.)—Dr. Carl D. Case, pastor of the Oak Park Baptist church, was legally cleared of charges of misconduct made against him by Albert Leland, a porter, in his suit for divorce from Mrs. Charlotte Leland, when Judge Charles Foell today denied the divorce decree for want of equity.

The Rev. Mr. Case had filed an intervening petition to clear his name after Mrs. Leland had made a written confession of improper relations with him to her husband, later repeating her story from the witness stand.

**Girls Case Dismissing**

Judge Foell granted attorneys for Leland leave to appeal. The judge's decision, rendered orally, came after the court had remarked that the case was "disgusting and had deteriorated into a scandal and a town meeting—nothing else."

"If the court were to make an assignment of reasons for its decision," Judge Foell said, "too detailed account would be necessary. A consideration for public morals also demands that there be no further comment on the case. The details of testimony here have already been too widely exploited."

When the case was resumed today, attorneys who had spent two weeks in the East gathering testimony, called Durward Adams, son of Rev. George Adams, of Mount Vernon, N. Y., to the witness stand. He testified that his mother had told him of improper relations with the Rev. Mr. Case when his father brought suit for divorce. Rev. Mr. Case denied the charges and in counter charges asserted that Rev. Mr. Adams had attempted blackmail.

In their closing arguments attorneys for Mr. Case argued that Mrs. Leland suffered from hallucinations.

Mr. Leland said he would live apart from his wife and could not decide on further action until he consulted his lawyers. Mrs. Leland refused to make a statement.

"I am so happy that I can't speak," Mr. Case said as he rushed from the court room.

# Dykes Seeks Regular Job

## JIMMY DYKES

The purchase of Second Baseman Max Bishop from Baltimore by Connie Mack, means that Jimmy Dykes will not be used at second by the Athletics. Bishop has been the key-stone of the pennant-winning infield of the Baltimore Orioles. Manager Jack Dunn of that team says he has been ripe for the majors for several years. He has no doubt of his making good in the American League. It is such in the case, Jimmy Dykes must either wait the bench or try to displace Sammy Hale at third. Dykes prefers third, to second base and for a time was used at that position by Mack.

COLUMBUS, O., Feb. 20.—(Refusal of the utilities commission to issue certificates to operate buses in territory served by a traction company spells the death of motor buses in Ohio, according to John F. Carlisle, Columbus, attorney for the Ohio Motor Bus Owners' Association. Carlisle's statement is included in a brief filed yesterday in supreme court protesting the refusal of the commission to grant a certificate to the Red Star Bus Co. to operate between Columbus and Chillicothe. The appeal is based on the grounds the commission has no authority to consider service rendered by traction lines in passing on the question of public necessity for buses, that the Red Star line was in operation before the Freeman-Collister bus law became effective and cannot be deprived of the right to continue, and that the service rendered by the stops of the two concerns are different company is different from that of the traction company.

## BRINGING UP FATHER

## Roosevelt as I Knew Him

An audience which packed the auditorium of Trinity Methodist church to capacity heard Rev. Walter B. Smith deliver his celebrated and entertaining lecture on "Theodore Roosevelt, American," Tuesday evening.

Material for Dr. Smith's lecture was gathered during years of personal contact with the former president and high lights in Roosevelt's career, a wealth of character-portraying stories and a number of amusing anecdotes were recounted in the lecture which gave Dr. Smith's hearers first-hand insight into life of the former president. The text of Dr. Smith's message was interestingly illustrated when he said, in part, "There is a tradition in metropolitan circles to the effect that on the day Roosevelt was born, a cloud burst over lower Manhattan, a cyclone swept the city, and an earthquake opened Hell Gate, in New York harbor, to navigation. Cyclone, cloud-burst, earthquake, Theodore Roosevelt! I do not object to the association. Indeed, I believe it to be very apropos, for in one day Theodore Roosevelt made 37 speeches from the rear platform of a private car; dictated 30 letters, and read two books. "When Lord Mowrey returned to England to report to his colleagues, he declared he had seen the two great-

est phenomena on the Western continent—Niagara Falls and Theodore Roosevelt."

Dr. Smith has given his lecture in 24 states and three provinces of Canada, and has refused attractive offers to present it regularly on lecture platforms.

## WHY MANY STILL DESIRE WHISKEY

Poisoned by Clogged Filter, They Seek Something to Brace Up System and Make Them Feel Better.

The majority of people desire whiskey because they don't feel well. Some may look healthy, but one vital organ of their bodies is out of order. This organ is the liver, the body's filter! When it is out of order you often wake up feeling dull and tired, tongue coated, bad taste in your mouth, yellow complexion and unpleasant breath. You are bothered with such symptoms as poor digestion, no appetite, sour stomach and gas, irregular movement of the bowels and that run-down, tired out, nervous and upset condition! Often you have spitting headaches, catch cold easily and your system is too run-down to throw off the cold.

Better than whiskey. Take just a spoonful of Dr. Thatcher's Liver & Blood Syrup after the next few meals. Notice the quick difference in the way you look, eat, sleep and feel. Let this wholesome prescription cleanse and tone up your liver, put your stomach and system in condition and keep you feeling fine. It is pleasant to take and you will be completely satisfied; otherwise druggists are authorized to return the small cost. Dr. Thatcher's Liver & Blood Syrup is sold and recommended by Flood & Blake and The Service Drug Company in Portsmouth and by leading druggists in every city and town.—Advertisement.

# BIGGER, BETTER AUTO SHOW OPENS THURSDAY

**Exhibits To Be Best Ever;  
Real Entertainment To Add  
To Pleasure Of The Show**

More than a score of workmen were busily engaged today in transforming the Universal Garage, Gallia street, into a beautifully decorated exhibition hall for Portsmouth's second automobile show, which opens Thursday at 1:30 p. m. "It will be an agreeable surprise to the public, both in the matter of beauty and the new revelations in motor improvement," says A. A. MacDonald, chairman of the Auto Show. "It is to be, by far, the best show ever attempted in this tri-state region."

The two front display rooms have been hung with American flags. In one room there will be a motion picture show in connection with the Ford truck and tractor display. In the other room music, entertainment features and dancing will be enjoyed by the crowds which are anticipated. The large room in the rear where the accessories were displayed last year has been completely transformed by L. B. Woeste and his corps of assistants. Southern cypress columns will be on exhibit, pale apple green, bordered with white tassels caught with gold. Cluster lights of great intensity will shed an illumination approximating daylight over the thirty-five different makes of cars which will be on exhibit. The cars are being placed today and everything will be in readiness when the doors open Thursday.

The Portsmouth Automobile Dealers' Association estimates the value of the exhibits at \$150,000. In addition to dancing there will be music by B. E. Howard's "South-erners" and by Miss Florence Braun. Refreshments and coffee will be offered by the ladies of Trinity M. E. church. The show will continue until 11 o'clock Saturday night.

## Fines Will Go To City If Ordinance Is Passed Tonight

At the regular meeting of the city council tonight City Solicitor Sherard Johnson is expected to introduce an ordinance providing for the collection of liquor fines under a city ordinance instead of under the Crabba

act as at present. The passing of this ordinance would turn all liquor fines into the city treasury instead of one half going to the city and one half to the state as is the case under the present system of legislation.

## Betrayal of Trust Greater Menace Than Bolshevism, Says McAdoo

KANSAS CITY, MO., February 20.—(By the Associated Press).—The betrayal of trust by high government officials presents a greater menace to Democracy than bolshevism or any other of the alleged evil influences, William G. McAdoo, candidate for the Democratic nomination for president, declared in an address on the train platform at the union station here today.

"There can be no government with corruption in high places," Mr. McAdoo said. "This is a question of the life of the American nation. We must bring honesty back to government."

The investigation must go on, he said; until all the facts are brought out, adding that he did not wish to see any attempt to "whitewash" any one. Mr. McAdoo reiterated his stand for a soldiers' bonus and declared that the government had been unfair to those in the war.

"The veterans' bureau, whose sacred duty was to protect and care for the disabled and sick, stole money from these boys," he said. "What can be said of a government so bad as that?"

"The Democrats did not debauch the government. Through the eight years of Woodrow Wilson's administration

and in the eight years that Grover Cleveland was president, there was no such corruption. It remained for the administration which promised the people that the best minds would rule, to betray the government.

Regarding the approval of a Democratic tax plan by congress, Mr. McAdoo said:

"Yesterday a new and fresh break of cleanliness and patriotism came out of congress. The Republicans who would refuse our service men a bonus, would have reduced the taxes on the rich and made the burden of the poor man harder."

Since you sent my name to the senate, Huston Thompson, a member of the Federal Trade Commission, has appeared before the senate interstate commerce committee and informed that body, in substance, that in May, 1921, I had made inquiries of him with respect to the commission's proceedings against the Famous Players-Lasky Corporation, in such a way as to convey the impression that I was endeavoring to interfere with or influence their proceedings.

"In view of the facts, Mr. Thompson's impression of our conference has amazed me. I called Mr. Thompson to the executive office in the performance of an official duty solely and for the sole purpose of securing information as to the status of this case.

frankly stated to him that representations had been made that this company was under investigation and that a hearing had been denied. I further stated that I knew nothing of the methods of procedure of the commission or its rules of practice and asked him for the facts.

"Mr. Thompson was most courteous and painstaking in explaining the commission's procedure to me and that explanation made it perfectly plain that the company involved had no reason whatever to apprehend that any governmental action respecting it would be taken without the fullest opportunity to protect its rights. I made no request of Mr. Thompson, I made no suggestions and voiced no criticism."

Mr. Cristian added that he would be "very reluctant" to serve on a commission, a member of which was objecting to my appointment.

## Court House

## Charges Neglect and Cruelty

Alleging neglect and cruelty Helen May Peters, 1412 Perkins Court, Canton, suing through Attorneys Wise and Wise, in the Common Pleas court of Stark county, seeks divorce and alimony from Frank K. Peters, who formerly lived at 1024 Fourth street, this city.

Plaintiff says in her petition that Peters not only failed to support her properly but accuses him of squandering \$2,000 of her money which she had at the time of their marriage in June, 1922. She further avers that Peters neglected to be a traveling salesman and persuaded her to go with him from city to city for a time and until he failed to provide sufficient money to furnish her with necessary food, and then she says he sent her back to her mother.

Sheriff Harvey M. Dunham was unable to locate the defendant today when he sought to find him to serve the process of the court upon him.

## Asks Judgment and Accounting

Judgment for the sum of \$1933 together with cancellation of contract and for an accounting is sought by James H. Ryan in a suit instituted Wednesday in Common Pleas court against W. R. Underburg.

In his petition filed through Attorney D. G. Millar, plaintiff says that on Sept. 1, 1923, he entered into a contract with the defendant for the sale of a one-half interest in two Mack trucks, which were incumbered by a mortgage to the Mack Motor company for approximately \$3,400.

Ryan further says that under the terms of the agreement both he and defendant were to operate the trucks and apply the proceeds to the payment of the mortgage and then divide the proceeds equally. He then complains that the defendant took possession of the trucks and still has them, but says that he has never paid the \$1933 purchase price and declares that for the past three months he has failed and neglected to pay anything towards the mortgages.

## Charges Neglect and Cruelty

Nellie Savage, 2202 Jackson street, charges neglect and cruelty in her suit for divorce and alimony with custody of their minor child, a son now 8 years old, instituted in Common Pleas court Wednesday, against Emory Savage, to whom she was married in May, 1905.

The wife in her petition filed through Attorney E. G. Millar says that Savage deserted her and their child on February 4th last.

and complaining that he later returned to her home at the Jackson street address and not only assaulted her, she asserts, but attempted to cut her with a knife. The wife secured a temporary injunction restraining Savage from coming about her home or molesting her in any manner until the case can be heard on its merits. She avers that the defendant has failed and refused to support her and their child since he left.

COLUMBUS, Feb. 20.—Denial that authorization had been given for the use of the name of former Governor Cox as a candidate for the Democratic nomination for the presidency, as stated in dispatches from Cleveland, was made here today.

## Investigating Records of John Collins

Former Local Boy; Books Missing

The following from the Dayton letter in the Cincinnati Enquirer Wednesday will be of interest here, as Collins is a former Portsmouth boy and his parents reside here:

Frank Thomas, state examiner, is continuing his investigation of the records of John Collins, Secretary to Safety Director H. E. Myers and who has supervision of the police pension fund. He said today it would require several days to complete his work and that a report of his findings would be filed in the usual manner.

It is said that the investigation of Collins' accounts followed the finding by Police Chief Woodward that a police pension fund receipt book and a minute book, showing the amount of deposits made in the fund for a period of more than a year, were missing from police headquarters.

# ROAD PROBLEMS FRANKLY DISCUSSED AT MASS MEETING

## City Profits By Having Own Waterworks.

Findings for recovery of an aggregate of \$1123.20 against sundry persons in connection with computation errors on meter service cards were made in the report of Aaron Moul, state examiner, as the result of his recent examination of the city water works department accounts. A finding was also made in favor of John H. Lynn, former water works collector, of \$17.43 due to a cash book error.

These were the only findings made in the report which in the main lauds officials for the manner in which the department was conducted during the time covered by the report, May 1, 1921 to December 31, 1923.

The examiner suggests that the city take advantage of discounts offered by persons and companies from whom the department purchases supplies and thus save this money for the department. The examiner also calls attention to minor irregularities in the handling of water works sinking fund securities.

The report contains a financial statement which shows that the taxpayers of Portsmouth, by having owned their own water works plant, profited to the amount of \$40,520.92 in addition to having enjoyed fire protection free, which protection it had been furnished by a private corporation would have cost at least \$15,400 (850 hydrants at \$40 each). The report further discloses that \$5,250.00 worth of legal free water was furnished to schools and other city institutions and \$1000 worth of illegal free water was furnished for 50 sewer flush tanks, a total of \$6,250 free water.

A revised statement by Service Director Wilson shows the valuation of the water works plant at \$1,011,850.

## Good Roads Expert Talks to Kiwanians

At the conclusion of an address, delivered with illustrations that brought down the house, Wednesday noon at the Mary Louise, by Thurman J. "Dusty" Miller, editor of the Willington News-Journal, every member of the Kiwanian club was an enthusiastic advocate for good roads. Mr. Miller, forceful always, pointed out the fact that good roads are not only a matter of convenience but a matter of health. He said that there are two kinds of people, the "gimmies" and the "fixers." The "gimmies" are the "lummies" who get everything while the "fixers" stand back with folded arms and wait for somebody to do it. He said that good roads was a give and get proposition and that a section that participated in good roads matters was the one that generally got the improvements.

## Remarkable Discovery Banishes Gray Hair

A Proved Substitute for the Lost Pigmentation

Original Color Quickly Appears

Science again has scored a triumph in the discovery of a very remarkable liquid known as Kolor-Bak. If you are gray, just apply this liquid to the hair or scalp and your hair will soon take on the actual color it had in the past. Not a trace of grayness will remain.

Kolor-Bak comes in the form of a clear and colorless liquid, containing properties which quickly restore the lost color to the hair and give it renewed vigor. And note that the one preparation is for all colors of hair. No special solution required for each color—no samples of hair required.

You will find also that after using Kolor-Bak the hair has the same shade throughout. It does not appear streaked, and prevents the hair from becoming "dyed."

Every scientist, every physician, knows that gray hair is hair that has ceased to receive its normal supply of coloring matter or pigments from certain tiny cells (called follicles or papillae) in the scalp, because these cells have become inactive, from illness, shock of some kind, scalp disease, dandruff, infection, neglect of the hair, or lack of circulation, etc. But no matter what the cause of the grayness, it is simply amazing to see how it disappears when Kolor-Bak is used. Kolor-Bak is a real substitute for the natural pigmentation.

Kolor-Bak has been proved by hundreds of thousands of people, once gray, now with hair in the original color. Get a bottle today.

### BARNUM'S RULE FOR GETTING RICH

**B**ARNUM, the circus man who "discovered" America; at one time in his career toured England delivering a lecture on "The Art of Money Getting." After many years, the high spot of this lecture is Barnum's belief that there is no such thing as luck.

Said Barnum: "There never was a man who could go out in the morning and find a purse full of gold in the street today, and another tomorrow, and so on, day after day. He may do so once in his life; but so far as mere luck is concerned, he is as liable to lose it as to find it."

There is, however, more reason for believing in good luck than in bad luck, even though so-called good luck usually is a combination of intelligence, influence and hard work.

Barnum was a genius, a combination of highly developed imagination and a decided sense of the practicable. Warning against being too visionary, Barnum told of a "philosophic pauper" who was kicked out of a cheap boarding-house because he could not pay his bill, but he had a roll of papers sticking out of his coat pocket which, upon examination, proved to be his plan for paying off the national debt of England without the aid of a penny.

This gentleman, had he lived today in America, would most certainly be in politics.

Barnum warned of debt as a consuming monster. He preached thrift—economy—but believed in moderation, cautioning against saving extravagantly as well as spending too lavishly.

M. R. Werner, in his biography of Barnum, records that Barnum considered sound health and abstention from intoxicating drinks and tobacco indispensable for success.

Barnum had two excellent mottoes:

"Whatever you do, do it with all your might."

"Unless a man enters upon the vocation intended for him by nature, and best suited to his peculiar genius, he cannot succeed."

Parents should ponder this bit of wisdom. Many a man is a failure because his parents stupidly talked him into following a line of work other than what he naturally craved.

Above all, we believe, Barnum would have urged common honesty to young men anxious to get ahead today. He was known as the Prince of Humbugs. But his swindles were innocent and in the nature of jests, and he always gave his dupes their money's worth—entertainment.

If Postmaster General New would issue another order that newspapers be rushed to their destination we very much fear we would not get any second class mail at all. Tuesday we got Sunday's Huntington and Ashland papers. And it took three trips and some inquiry to connect with our regular mail that was reposing in a receptacle upstairs instead of in the perfectly good box for which we pay rent.

At times the difference between earth and heaven is only the thickness of a brake lining.

There are two kinds of wives: Unhappy ones, and those who believe everything their husbands say.

Every normal married man feels a little bit sorry for the poor spinsters who can't get a man like him.

Sometimes, however, the tender touch of a woman's hand is a legal tender touch.

The man who says he has no desire for riches may be a philosopher; for that matter, any other liar may be a philosopher.

Unfortunately for the peace of the world, sore spots, as well as pins, are visited on the third and fourth generations.

When a woman complains that her husband doesn't understand her, she usually means that she has found another man who does.

## NEW YORK DAY-BY-DAY

BY O. O. McINTIRE

NEW YORK, Feb. 20.—The young man who sets his cap for an heiress and lands her does not always live happily ever after. They may lead a limousine life sans toil, but in the end, revealing the Kipling dictum, they pay and pay and pay.

I have in mind a blonde young fellow who wed the daughter of a man who inherited one of Manhattan's greatest fortunes. He came from a family of impoverished aristocrats. He was the envy of all. Country estates, homes in Paris, London and Palm Beach.

I crossed with them on a steamer once. He was a super lucky. He ran errands and was an efficient "Yes, Yesser." He apparently lived in dread of her carping comment and there were times when I imagined he would have given the dowry to have inquired: "Who's boss of the family, anyhow?"

I have seen them with parties in cafes. He had the manner of an unpopular step-child trying to win favor. He has no job and is dragged off to this place and that when the whim to move seizes her. His job is to look out for the luggage.

There are scores of young men who no doubt imagined they had come a favored scion of a fortune. They landed in clover when they married Manhattan heiresses. It is not so long before they are taken to wit the realization that their wives look upon them with contemptuous superiority.

The man who marries for money and position is necessarily lacking in corpulence of character, but so he comes a favored scion of a fortune. They landed in clover when they married Manhattan heiresses. It is not so long before they are taken to wit the realization that their wives look upon them with contemptuous superiority.

One eloped with a coachman and the other two got week-end Paris divorces and married men who worked. The fortune hunter may not thrill to "love in a cottage" before marriage, but after the honeymoon he has a brand new set of ideas.

The music publishing houses along Tin Pan Alley flaunt their newest and enticest tunes with printed window signs. On Forty-Seventh street I saw this one in two feet letters of red: "The last tear in my songs."

The man who has the reputation of writing the greatest stories of rural types living in mountainous lives in a Harlem flat and the smallest town he ever in is Troy, N. Y. One of the best pen etchings of New York was written by a fellow who the middle west who spent four days here on a Sunday school excursion. However, these are mere coincidences. As a rule the writer must study his subject to produce the proper phonetics.

It is difficult to imagine the George M. Cohan of today as the
